

Results

Studies have shown that the ClearToe protocol can clear the appearance of infected toenails within 6 months.

The ClearToe technology has a proven safety record with no recorded adverse reactions.

**The blue colour on the toenails is trace formulation that will fade completely with time.*

Before	After 6 Months*	Patient	Before	After 6 Months*	Patient
		Male 34-years-old			Female 69-years-old
		Male 58-years-old			Male 63-years-old
		Male 75-years-old			Female 62-years-old
		Female 62-years-old			Male 70-years-old
